Water drip
Coffee pot
8 hours extract

Coffee
with
deep taste
and
rich aroma

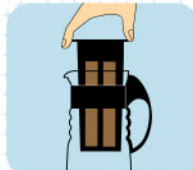

How to make delicious water drip coffee

1

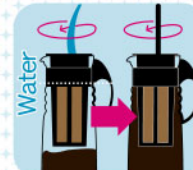

Place the ground coffee in the strainer

2

Set up the pot

3

Drip the coffee with cold water and stir lightly when finished

4

Place in refrigerator and extract for approximately 8 hours

5

Take out the strainer and finish.

Makes approximately 8 servings of water drip coffee.

The same taste can be enjoyed for approximately 2-3 days after extraction.
